Address : Tilottama-5,RUPANDEHI

CAREER OBJECTIVE

Motivated BCA student with a background in Management Computer Science, seeking to apply my skills in software development and web technologies. Passionate about building innovative solutions like job portals that solve real-world problems. Eager to learn, grow, and contribute to a dynamic tech team where I can enhance my technical skills and support organizational goals.

TECHNICAL PROFICIENCY

- Languages: JavaScript, JAVA, HTML, CSS
- Databases: MySQL
- Web Technologies: Servlets, JSP

EDUCATIONAL QUALIFICATION

- Bachelor of Computer Applications from Butwal Kalika Campus (Tribhuvan University)

ACADEMIC PROJECT WORK

• Title: Job Portal System

Duration: 3 months

Project Description:

A Job Portal platform designed to connect employers and job seekers. Employers can post job vacancies, while job seekers can create profiles, upload resumes, and apply for jobs. The system features job filtering and category-based search. It ensures a user-friendly experience and a responsive interface. Developed using **MySQL** for backend functionality, and **HTML, CSS, JavaScript** for frontend design.

• Title: Hotel Management System

Duration: 3 months

Project Description:

A Hotel Management System developed to streamline hotel operations, including room booking, check-in/check-out, housekeeping status, billing, and report generation. The system also manages customer details and availability status. It improves service efficiency and organization. Built using **MySQL** for the backend, and **HTML, CSS, JavaScript** for the frontend.
